SUPPLEMENTARY INFORMATION:**I. Abstract**

The United States Patent and Trademark Office (USPTO) is required by 35 U.S.C. 131 and 151 to examine applications and, when appropriate,

allow applications and issue them as patents. When an application for a patent is allowed by the USPTO, the USPTO issues a notice of allowance and the applicant must pay the specified issue fee (including the publication fee, if applicable) within three months to avoid abandonment of the application. If the appropriate fees are paid within the proper time period, the USPTO can then issue the patent. If the fees are not paid within the designated time period, the application is abandoned and the applicant may petition the Director to accept a delayed payment with a satisfactory showing that the delay was unavoidable or unintentional. The Petition for Revival of an Application for Patent Abandoned Unavoidably (Form PTO/SB/61) and the Petition for Revival of an Application for Patent Abandoned Unintentionally (Form PTO/SB/64) are approved under information collection 0651–0031. The rules outlining the procedures for payment of the issue fee and issuance of a patent are found at 37 CFR 1.18 and 1.311–1.317.

Chapter 25 of Title 35 U.S.C. provides that there are several actions that the applicant may take after issuance of a patent, including requesting the correction of errors in a patent. For original patents that are deemed wholly or partly inoperative, applicants may file a reissue application, which entails several formal requirements including an oath or declaration stating that the errors in the patent were not the result of any deceptive intention on the part of the applicant. The rules outlining these procedures are found at 37 CFR 1.171–1.178 and 1.322–1.325.

The public uses this information collection to pay fees for issued patents, to request corrections of errors in issued patents, and to submit applications for reissue patents. This collection previously included information requirements related to patent reexaminations. These items are being

removed from this collection and have been submitted as a separate new collection, 0651–00XX Patent Reexaminations, which is currently under review by OMB.

II. Method of Collection

By mail, facsimile, hand delivery, or electronically to the USPTO. Electronic submissions are made through EFS-Web, the USPTO’s online filing system for patent applications and related documents.

Estimated Total Annual Non-hour Respondent Cost Burden: \$284,329,886 per year. There are no capital start-up or maintenance costs associated with this information collection. However, this collection does have annual (non-hour) costs in the form of fees, postage costs, and recordkeeping costs.

The total estimated fees for this collection are calculated in the accompanying table. The Reissue Application Fee Transmittal Form

(PTO/SB/56) includes the fees for the reissue application under 37 CFR 1.16, including the basic filing fee, search fee, and examination fee. These fees cover all parts of the application, including reissue documentation, reissue application transmittal, reissue application declarations, and consent of assignee or statement of non-assignment. There is no fee for the supplemental declaration for a reissue patent application to correct an "errors"

statement. Additionally, there are several different issue fees under 37 CFR 1.18 depending on the type of patent being issued, whether a publication fee is required, and whether the inventor is entitled to the discounted small entity fee. The USPTO estimates that the total fees associated with this collection will be \$284,296,310 per year.
