

How to Access WO Documents Using PATENTSCOPE

PATENTSCOPE

www.wipo.int

The screenshot shows the WIPO website homepage. At the top is the WIPO logo and navigation links: Media, Meetings, Contact Us, My Account, and English. Below this is a horizontal menu with links: IP Services, Policy, Cooperation, Reference, About IP, and Inside WIPO. A search bar is located to the right of the menu. The main content area features a large banner with the text "Yes – the WIPO web site has changed!" and a welcome message. Below the banner, there are several sections: "WIPO is the global forum for intellectual property services, policy, information and cooperation.", "We deliver global services for protecting IP" (with sub-sections for WIPO/PCT, WIPO/MADRID, and WIPO/HAGUE), "Alternative dispute resolution", "Domain name disputes", "We shape international IP rules for a changing world", "Next meetings" (with sub-sections for Committee on Development and Intellectual Property and Standing Committee on Copyright and Related Rights), "We provide access to the world's IP information" (with sub-sections for PATENTSCOPE and Global Brand Database), and "Launch of the World IP Report 2013".

via WIPO's PCT Resources (www.wipo.int/pct/en)

The screenshot shows the WIPO PCT website. The header includes the WIPO logo and navigation links: Media, Meetings, Contact Us, My Account, and English. Below the header is a search bar and a menu with links: IP Services, Policy, Cooperation, Reference, About IP, and Inside WIPO. The main content area is titled "PCT – The International Patent System" and includes a paragraph about the PCT, a world map, and a sidebar with subscription and ePCT-Filing pilot information. The footer contains links for News, PCT Resources, PCT Offices, and How to.

PCT – The International Patent System

The Patent Cooperation Treaty (PCT) assists applicants in seeking patent protection internationally for their inventions, helps patent Offices with their patent granting decisions, and facilitates public access to a wealth of technical information relating to those inventions. By filing one international patent application under the PCT, applicants can simultaneously seek protection for an invention in 148 countries throughout the world. Read more about the PCT.

Search published applications

Published international applications are available on **PATENTSCOPE**, one of WIPO's global databases. This database also includes patent documents from 26 participating Offices providing public access, free of charge to over 32 million technology disclosures.

Manage your application

ePCT *private services* provides online access to the file of your international application and a suite of functions to facilitate monitoring and management during the international phase.

Title: (EN) GRAPHIC SHARING
(FR) PARTAGE DE GRAPHIQUES

Abstract: (EN) A graphics provider terminal samples, through a graphical interface provided by a Canvas specification, a graphic generated by a web browser of the graphics provider terminal based on the Canvas specification to obtain graphics information according to a preset sampling rate. The graphics provider terminal packs the graphics information to obtain a message packet based on a preset graphics sharing agreement, and sends the message packet to a graphics exchange server through a persistent connection between the graphics provider terminal and the graphics exchange server. The graphics exchange server unpacks the message packet to obtain the graphics information and sends the graphics information to a graphics receiver terminal through a persistent connection between the graphics receiver terminal and the graphics exchange server.
(FR) Un terminal fournisseur de graphiques échantillonne, par le biais d'une interface graphique mise en place grâce à une spécification de Canvas, un graphique généré par son navigateur Web sur la base de ladite spécification de Canvas afin d'obtenir des informations graphiques conformément à une vitesse d'échantillonnage prédéfinie. Ce terminal fournisseur de graphiques forme un paquet avec les informations graphiques pour obtenir un paquet message sur la base d'un accord de partage de graphiques prédéfini, et il envoie ledit paquet message à un serveur d'échange de graphiques par le biais d'une connexion permanente qui existe entre eux. Ce serveur d'échange de graphiques défait le paquet message pour obtenir les informations graphiques, et il les envoie à un terminal récepteur de graphiques par le biais d'une connexion permanente qui existe entre eux.
